

2015 SILICON VALLEY BOOMER VENTURE SUMMIT HONORABLE MENTIONS

AgeSafe

AgeSafe Systems provides automatic safety monitoring protection and relieves users the burden of wearing emergency pendant/watch.

Carevium

Carevium care management service enables compassionate care for our seniors by empowering professional and family caregivers.

DeviceFarm

DeviceFarm is a medical device startup company dedicated to developing the safest, most effective, and most convenient cure for fungal nail infections (onychomycosis).

EmPowerYu

EmPowerYu is an early stage SaaS/PaaS company answering the question "Are my loved ones OK at home" by using personalized pattern analytics over data from existing home security and automation sensors (no cameras!), and presenting summarized information to caregivers on an at-a-glance graphic user interface anytime, anywhere.

EZDoctor

A "CarFax" report for Healthcare providing consumers a comprehensive, objective, and transparent overview of their doctor, empowering them to make educated and informed decisions.

LifeAssist Technologies

Age at home independently with LATs person centric memory aid device that elders use and enjoy, and a web based portal for collaborative care giving.

LivWell Health

We offer a platform for post-acute providers to manage complex care transitions from hospital-to-home by combining geriatric care assessments with community-based services and wellness events to advance population health.

Meals To Heal

Meals to Heal is a technology-enabled provider of personalized nutrition solutions to people, and the caregivers of people, suffering from chronic medical conditions.

Medella Health

We are developing contact lenses that continuously monitor glucose levels, in order to make diabetes management seamless and simpler.

MyGrove Media

A browser, tablet and phone app to connect like minded age 50+ adults and empower the offline activity groups (ranging from pickle ball to quilting) that they are passionate about.

Room2Care

Utilizing the power of the sharing economy, Room2Care provides accountable, affordable shared senior care.

UnaliWear

Wearable "OnStar for Seniors"
